

# Hearts are Racing with New Ideas

## California puts innovation in the palm of your hands.

Electronic Stethoscopes? In California's medical manufacturing field, anything is possible—especially when your business can take advantage of a state that is the leader in innovation and technology, not to mention the 5th largest economy in the world. Our knowledge-based economy is full of research and development dollars to help California businesses grow. Not only do we boast 20 percent of the national total in R & D, but we also offer an unsurpassed lifestyle, highly skilled workforce, and a diverse landscape to meet your business needs. Balance that with great highway systems and a complete transportation grid, we can get you and your product there whether you're looking for the Pacific Rim or the Pacific Ocean.

Energy, water or wind, we have it and we'll make it work for you. Contact TeamCalifornia at 916-322-0598 if a healthier state for business interests you. Whether you're thinking about relocating or planning on expanding, we're here to help put opportunity in your hands.
